

Accelerating E-Mobility

B2B Matchmaking

B2B matchmaking is a highly focused form of business networking. It is a valuable and integral part of the ENEVATE event on the 19th of September. In sessions of 15 minutes, there are opportunities for entrepreneurs and business professionals to identify cooperation and business partnerships. The unique and highly personalized approach makes this B2B matchmaking a fast and effective way to introduce your business to other potential partners and new markets.

Our B2B matchmaking main focuses:

- targeted at companies and research institutes out of the EMR/Northwest European region.
- for developing new business or innovative technology,
- by pre-arranged confidential one-on-one appointments,
- with potential business partners and clients.
- personal approach by matching the registered cooperation profiles.

Based on your registration at www.AutomotiveNL.com we arrange pre-scheduled meetings during the parallel sessions. Each participant is receiving his/her own agenda for the whole day in which the meetings are embedded.

For more details, please contact us at g.puts@AutomotiveNL.com. We look forward to seeing you there!
